Three brands with one focus. Driving transformative solutions.

Driving transformative solutions.
Global Innovation. Australian Integration.

Paragon Care | DIAGNOSTIC & SCIENTIFIC GROUP

Fully focused on your diagnostic and scientific needs in the Australian and New Zealand markets. Our Diagnostic and Scientific Group is backed by Paragon Care's commitment to deliver optimal outcomes now and into the future.

Made up of three leading innovators in this space: Immulab, Immuno and LabGear Australia. Experienced manufacturer and distributors in the clinical diagnostics market.

Delivering the ultimate in healthcare, today and tomorrow.

WHO ARE WE?

About Paragon Care

Paragon Care has become recognised as a leading provider of equipment, devices and consumables to the healthcare market. Our Service & Technology division complements our offering delivering a comprehensive platform to ensure optimum outcomes are maintained through complete monitoring, maintenance and repair services.

Our agility and experience enables you to provide the right solution to achieve the optimal outcome, today.

Strategic Vision

Striving to deliver world-class technology and support across all healthcare sectors, Paragon Care's vision is to provide advanced solutions to improve patient experience and user workflows. By leveraging our expertise, agility and customer partnerships we are committed to finding the right solutions to achieve better outcomes every day.

Partnering with Paragon Care

- Diverse customer centric product and service portfolio, targeting four strategic pillars: Specialty Diagnostics, Specialty Devices, Capital & Consumables and Service & Technology.
- Extensive project management scope with installation and commissioning capabilities.
- Comprehensive service and maintenance capability.
- National footprint for sales and service support with coverage across Australia and New Zealand in each main city.

Dedicated to deliver diagnostic confidence.

ImmulaB has over 70 years specialist expertise in producing high quality reagents for the Immunohaematology sector. In many ways we're still pioneers. We proudly remain Australian-owned and locally develop, manufacture and supply innovative products to meet world best practice regulatory standards. Our team's entire focus is on ensuring you have the proven products and complete diagnostic confidence to safely and efficiently screen transfusion and transplant patients. To fully achieve this, we distribute and support the Immucor range of reagents, BioArray Genotyping, Transplant and Blood Bank automation.

AREAS OF EXPERTISE

Transfusion In-Vitro Diagnostics (IVD)

Developer and manufacturer of reagents for compatibility testing, blood grouping and antibody screening.

Original Equipment Manufacturer (OEM)

Full range of custom and contract manufacturing services.

Transfusion Automation

World-leading Immucor Blood Bank automation, molecular genotyping, specialty products and services

Transplant In-Vitro Diagnostics (IVD)

Immucor's innovative HLA typing and antibody screening products supporting organ and tissue transplantation.

Technical Services

Dedicated specialists offering 24/7 support with products, systems and applications.

Unlocking more possibilities.

There are a vast array of options in the area of clinical diagnostics. We take the extra time to search for global solutions that work locally. This provides a gateway to an evolving brand portfolio with unrivalled local support. We offer solutions in Haematology, Microbiology, Biochemistry, Serology, Immunology and Andrology testing.

AREAS OF EXPERTISE

Haematology

Specialised haematology testing including ESR and G6PD assays.

Microbiology

Supplier of equipment, test kits, reagents for urinalysis and bacterial culture screening.

Biochemistry/Serology

A wide range of diagnostic test kits, niche assays and equipment for clinical diagnostics and serological investigations.

Immunology

Testing kits to aid in immunological disease state investigations & diagnosis.

Andrology/IVF

Testing kits and products for use in the IVF settings and andrology investigations.

Cytogenetics

Total laboratory solutions for the investigation of chromosomal abnormalities.

Representing names that you know and quality brands that you trust.

Providing access to a range of quality laboratory essential equipment and consumables, we are far more than a reseller. We are your distribution partner, dedicated to the supply and technical support for reliable solutions locally.

AREAS OF EXPERTISE

Cold Storage

Quality brands in ultra-low temperature freezers, storage solutions and refrigerators.

Cryopreservation

Isothermal freezers, liquid nitrogen (LN2) tanks, protective equipment (PPE) for your cryogenic needs.

Centrifugation

Representing the Hettich German engineered brand including centrifuges and cell washers.

Sterilisation

A range of floor standing and benchtop autoclaves.

Laboratory Consumables

Nitrile and latex gloves, pipette tips, PCR racks and tubes and other plasticware for your laboratory needs.

Small Laboratory Equipment

Providing a range of water baths, bead baths, stirrers, mixers, shakers, homogenisers and pipettes.

Large Laboratory Equipment

Features specialised equipment, centrifugal evaporators, freeze dryers, biological safety cabinets, incubators, ovens and more.
