What is RAP?

The **Rehabilitation Appliances Program (RAP)** is provided by the Department of Veterans' Affairs (DVA). It gives eligible veterans access to healthcare aids and equipment that support independence, safety, and quality of life in their own homes.

RAP covers a wide range of clinically assessed products, including continence items, mobility supports, daily living aids, and specialised medical equipment. All products are listed on the **RAP National Schedule of Equipment**, which ensures consistency, safety, and equity of access across Australia. ParagonCare is a preferred supplier for continence and urology products to those entitled nationally. This provides peace of mind to veterans and their families in an efficient time-frame.

Why is RAP important?

- Enables veterans to stay independent and comfortable at home.
- Reduces the risk of health complications by ensuring timely access to the right equipment.

Eligibility

The RAP products can be made available to Gold and White card holders on the basis of a clinical assessment by a qualified healthcare professional. Each RAP header below advises the approved prescriber for each product category. RAP is available to:

- **Gold Card holders:** for all clinically assessed needs.
- **White Card holders:** for conditions accepted by DVA.
- **Clinically assessed:** Products are prescribed based on individual needs to ensure the right solution for each person.

ParagonCare is a contracted supplier under RAP, delivering approved healthcare products directly to veterans' homes with reliability, dignity, and care. For more information about RAP, visit the Department of Veterans' Affairs website: www.dva.gov.au

Initial Orders

To establish this order complete the form below. If the client has a:

Gold Card – send the form directly to the supplier (details are in the 'Select a Supplier' section of this form on page 2).

White Card – send the completed form, nominating your preferred supplier and with information on the client's clinical need (name of the condition) that has led to client requiring continence products to RAPGeneralEnquiries@dva.gov.au. DVA will be checking to ensure the client has an accepted condition that aligns with this information. If approved DVA will forward the order directly to the nominated supplier.

If the client is in a Residential Aged Care Facility (RACF) – RACF are funded to provide continence products for clients with a clinical need. DVA does not seek to duplicate these arrangements. In exceptional circumstances DVA may consider on a case-by-case basis requests for continence products. Please provide adequate justification with this request.

Subsequent Orders

This direct order from is valid for 2 years only.

The prescriber, the client or their nominated representative will need to contact the supplier for subsequent orders.

On completion of the 2 years the client will need to be reassessed and another form completed by the appropriate health provider.
