

Making healthcare
**simpler, smarter and
more accessible**
across Asia Pacific.

An introduction to the business we've become.

ParagonCare

Enabling Healthcare

Our Channels

One partner for the whole of healthcare.

**Healthcare keeps getting more complex.
We exist to take that complexity off your desk.**

More products. More technology. More pressure to deliver better outcomes with less. ParagonCare brings everything you need together under one roof - distribution, logistics, manufacturing and specialist healthcare expertise, integrated into one business so yours runs more smoothly.

We were formed through the merger of two respected Australian healthcare organisations with more than a century of combined experience, built on a shared belief: healthcare works better when the right people have access to the right products, at the right time.

Today that belief runs through one of the most comprehensive healthcare portfolios in the region - more than 60,000 products and 2,000 trusted brands across pharmaceuticals, equipment, diagnostics and devices, held together by 18 specialised business units.

We make all of it simple to access, and we back it with the service and support that healthcare providers rely on every day.

**So you spend less time managing complexity,
and more time delivering care.**

Our range and reach

One provider. Less to manage.

If healthcare needs it, chances are it's in our range.

We entered the century as an independent Australian healthcare supplier in 1918 and grew into who we are today, an ASX-listed, international healthcare leader. Step by step, our business became your business through trusted partnerships

**Our channels - wherever healthcare happens,
we're in the room**

1

Wholesale

Supporting pharmacy, consumables,
dental and community healthcare.

2

Medical Technology

Delivering imaging, devices, surgical
solutions and specialist care.

3

Contract Logistics

Healthcare-focused logistics
and distribution solutions.

4

Clinical Manufacturing

Sovereign diagnostics and specialised
manufacturing capability.

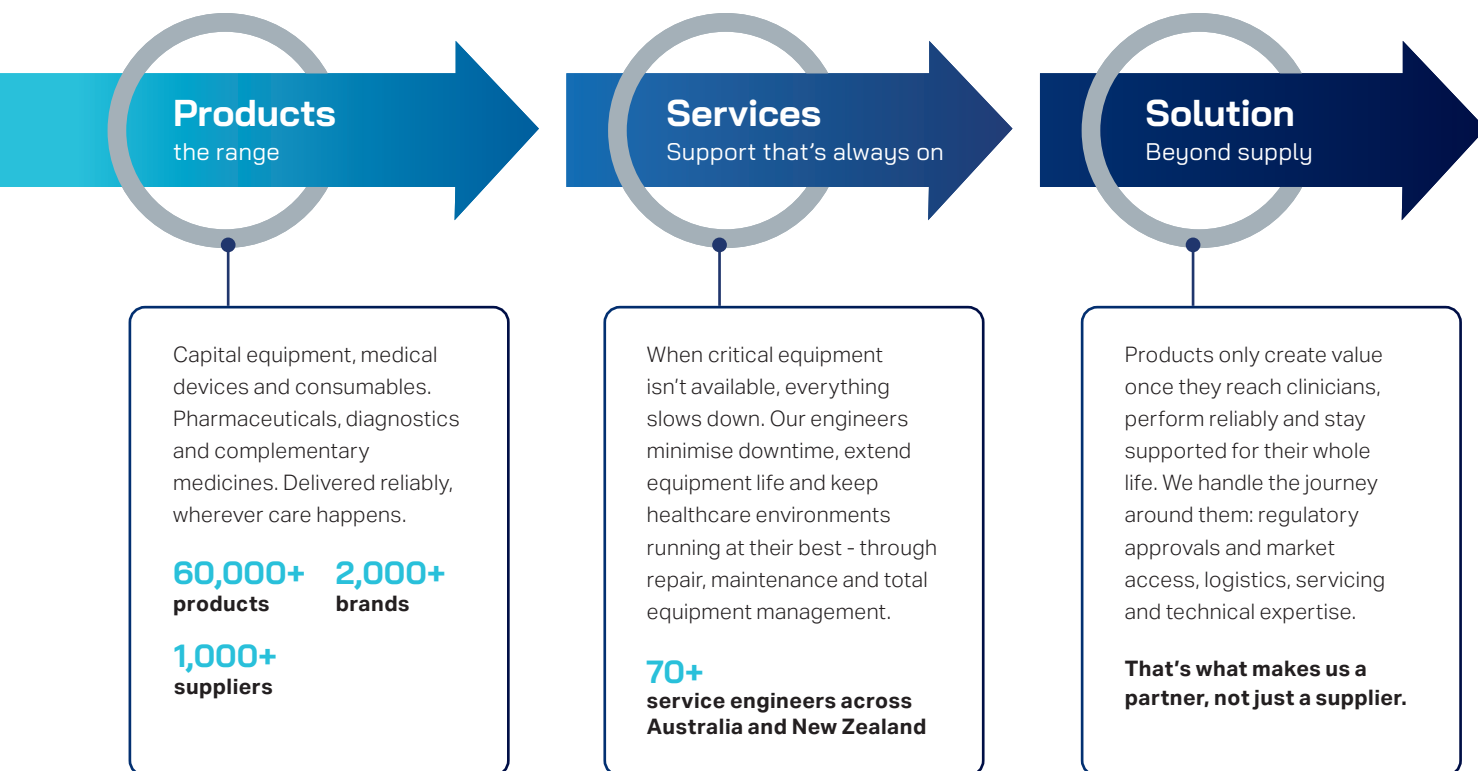

**Together these channels support more than 18 specialised healthcare business units,
creating a connected ecosystem capable of supporting healthcare at every stage.**

What we do

Product. Service. Solution.

End-to-end support, tailored to your level of care.

**Reliability isn't a nice-to-have in healthcare.
It's the job. And we provide it all under one roof.**

Value

Quality you trust, at a price that works.

Real value is healthcare that's easier to deliver,
not harder to afford.

ParagonCare Vantage - for independent pharmacy

Our Vantage Pharmacy Wholesale Program opens up ParagonCare's wholesale scale, range and distribution network to independent pharmacies through a flexible, low-cost membership.

It's buying power that lets you compete with the big players without trading your independence - choice, control and flexibility intact. We're here to support your business, not to change how you run it.

Partners and Presence

A home-grown leader, branching out.

Trusted across Australia and New Zealand.
Growing fast through Asia Pacific.

Healthcare doesn't stand still, so neither do we.

Our presence across Asia Pacific means stronger supplier partnerships, broader market expertise and more resilience in the supply chain behind you.

**Wherever growth takes you,
you have a partner already there.**
