

AQUAPURE II

Micro-dermabrasion

Microdermabrasion with Diamond Tip

Exfoliation & Extraction with Direct Serum Infusion

Deep Pore Cleansing by Micro-Focused Needles

Improved Skin Firmness & Anti-Inflammation with LED Therapy

Micro-Dermabrasion by AQUAPURE II

AQUAPURE II combines Diamond, Aqua-Diamond Peeling, Micro-Focused Needling, and Multi-Wavelength LED Therapy to achieve skin rejuvenation, hydration, and firming effects - all in a single platform.

4 Handpieces for Optimal Results

DIAMOND PEEL

The Diamond Peel handpiece removes dead skin cells, improves skin tone, and supplies nutrients to the epidermis.

AD PEEL

The AD Peel handpiece cleanses the pores and delivers moisturizing agents to the deeper layers of the skin.

The MF Needle handpiece

The MF Needle delivers nutrients into the epidermis and improves skin elasticity by promoting collagen remodeling.

LIGHTPURE

The LIGHTPURE enhances blood circulation, improves complexion, and reduces inflammation.

The LIGHTPURE 3 LED Lights

The LIGHTPURE therapy uses three LED wavelengths to target the epidermis, providing antibacterial, anti-inflammatory, and skin-firming benefits.

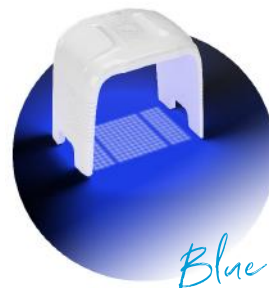

625nm

- Stimulates cellular activity
- Enhances skin firmness
- Delivers anti-aging benefits

520nm

- Balances moisture and oil levels in the skin

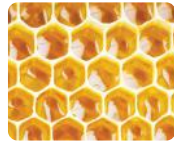

465nm

- Reduces inflammation
- Provides antibacterial and anti-inflammatory effects

Clinically Proven AQUAPURE Solutions

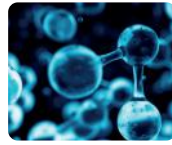

Seaweed Complex

Propolis Extract

Centella Asiatica TECA

Peptide Complex

A blend of natural extracts, hyaluronic acid, and a peptide complex works in synergy with the patented technology to deliver premium, carefully selected ingredients for optimal skin nourishment.

PEEL+ Exfoliation & Extraction

The treatment begins with a gentle, non-irritating skin scaling process that accelerates exfoliation and effectively removes dead skin cells and surface impurities.

SEBO+ Pore Control & Moisturization

The second step targets sebum dissolution, blackhead removal, and pore tightening. It helps maintain a healthy oil-moisture balance.

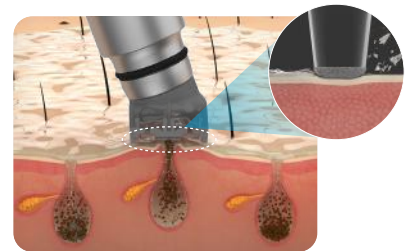

REJUVE+ Smooth Hydration

In the final step, the treatment enhances skin elasticity by stimulating elastin and regenerating collagen, while improving moisture retention to prevent dehydration.

Enhanced Suction Power

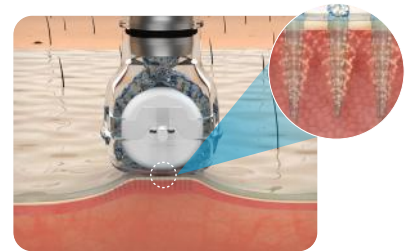

2.5 times more powerful than its predecessor, AQUAPURE, it cleanses pores more thoroughly.

AQUAPURE II's microdermabrasion technology maximizes treatment efficiency and results.

Visible Results with No Downtime

Its gentle yet effective procedure is suitable for all skin types, ensuring safe and consistent results without downtime.
