	 It's balanced Convenient treatment with uniform force application both horizontally and vertically.	 Acne control	 Skin tone	
	 It's suitable Excretion and suction of solutions suitable for body areas			

Clinically Proven AQUAPURE Solutions

Seaweed Complex

Propolis Extract

Centella Asiatica TECA

Peptide Complex

A blend of natural extracts, hyaluronic acid, and a peptide complex works in synergy with the patented technology to deliver premium, carefully selected ingredients for optimal skin nourishment.

PEEL+ Exfoliation & Extraction

The treatment begins with a gentle, non-irritating skin scaling process that accelerates exfoliation and effectively removes dead skin cells and surface impurities.

SEBO+ Pore Control & Moisturization

The second step targets sebum dissolution, blackhead removal, and pore tightening. It helps maintain a healthy oil-moisture balance.

REJUVE+ Smooth Hydration

In the final step, the treatment enhances skin elasticity by stimulating elastin and regenerating collagen, while improving moisture retention to prevent dehydration.

Uniform Spray Control Technology

The AQUAPEEL spray control knob provides 10 levels of control for consistent solution delivery, enhancing precision in microdermabrasion procedures. This advanced technology contributes to improved treatment efficiency and clinical results.
